

# High - Precision Cast Aluminium Alloy 6-channel Digital Transmitter OEM

## Specifications :

Price	Contact Us
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 working days.

## Detail Introduction :

### Features?

1. High-cost performance, a variety of digital filtering.
2. Choose one of RS232 or RS485 communication methods.
3. The parameters can be calibrated and modified through the handheld terminal.
4. 6 independent channels.

### Specification:

Specifications	Technique
Power Supply	DC10~30V
Input Signal	0.4mV/V~6mV/V
Excitation Voltage	5VDC±2%?100mA
Type	24-bit Delta-Sigma
Output port	RS232 or RS485 two options
Communication Mode	Modbus RTU/ASCII/FREE
Baud rate	1200/2400/4800/9600/19200/38400/57600/115200
Load Cells	Each channel drives 4pcs load cells 350?
Dimensions	115x90x40mm
Operating Temperature	-30~60?
Conversion Rate	10/40/640/1280/S
Display Accuracy	1/30000
IP Level	IP55

Note: TEDS function can be added.
