

M12 Waterproof Explosion-proof Stainless Steel Silicon Sensor For Hydraulic Pressure Controller

Specifications :

Price	Contact Us
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 working days.

Detail Introduction :

Application:

Applied to liquid/air pressure control in explosion-proof occasions, It is a high-quality Pressure Transmitters & Sensors.

Various industrial applications

Main features:

Rated capacity: **-1...0.1...1000bar**

Accuracy (according to BFSL): 0.25%/0.5%FSO

Analog output: 4...20mA/2 wire system ~ 0...10V/3 wire system
