

Measuring Range 50~2000kg Stainless Steel/ Alloy Steel Material Column Sensor

Specifications :

Price	Contact Us
Payment Terms	T/T, L/C, Western Union, etc.
Delivery Detail	10-25 working days.

Detail Introduction :

Application?

Suitable for force measurement in various small spaces, widely used in industry, Measurement and control in R&D and other fields

Measuring range 50~2000kg stainless steel/alloy steel material

Small deformation, customizable.

Protection level: IP66, low height, Suitable for force measurement, industry, R&D and other fields pressed into small spaces
